**WE MAKE YOUR IDEAS BE READY TO MOVE**

**Our business philosophy:**

- Every satisfied customer contributes to our growth
- The quality of the packaging and the pursuit for this result is customer satisfaction.
- Fundamental attention to the environmental impact and waste reduction.
- The professional growth of our team, as a true business asset.

Located in the heart of Emilia Scandiano, between Reggio Emilia and Modena, **Bocedi** covers an area of about 4,000 square meters.

A constantly evolving company that has skillfully expanded in line with the changes of the market, developing new technologies which respect increasingly the environment where we live.

**Bocedi** was established in 1966 by Vittorio and Franco Bocedi brothers. In the 70s the company focuses primarily on the construction of kilns for heat shrink and pallet handling systems. During the '80s, Franco and Vittorio Bocedi begin with the construction of hooding Machines and automatic machines for end of line. In the 90s, with the arrival in the company of new generation Bocedi, starts the development and the construction of the new machine for Stretch Hood film. Today the company **Bocedi** is led by the second generation of brothers, Fabrizio, Luca, Stefano and Cristian Bocedi.
